**DR. MICHAEL D. ADDIS ASSUMES THE PRESIDENCY OF THE MEDICAL STAFF
AT COOPERMAN BARNABAS MEDICAL CENTER**

*Accomplished Vascular Surgeon with The Cardiovascular Care Group Graciously Accepts
New Role at Cooperman Barnabas Medical Center*

SPRINGFIELD, NJ, March 28, 2023 – Michael D. Addis, MD, FACS, board-certified vascular surgeon with The Cardiovascular Care Group, has been appointed Medical Staff President of Cooperman Barnabas Medical Center as of March 28, 2023. This prestigious appointment is one of many accomplishments achieved by Dr. Addis throughout his illustrious career.

The role of Medical Staff President encompasses many duties all of which are designed to support the mission of the Medical Staff. This may include but is not limited to: credentialing and privileging, quality assessment and improvement, governance functions, administration of duties, and effective communication.

Dr. Addis has been practicing medicine for over 24 years. He earned his medical degree from the University of Medicine and Dentistry of New Jersey and completed his general surgery residency and vascular fellowship at Mount Sinai hospital in New York. He joined The Cardiovascular Care Group in 2005 and has been voted by his peers as a Top Doctor in New Jersey for 14 years in a row.

In addition to his impressive medical background, Dr. Addis served as an Infantry Officer in the United States Army for 8 years after graduating from Dartmouth College. He graduated from the US Army Airborne and Ranger Schools before being assigned to the 4th Battalion 18th Infantry in Germany. He served during Operations Desert Shield and Desert Storm and was awarded the Bronze Star Medal for bravery during combat operations against the Iraqi Republican Guard in February of 1991.

Dr. Addis' surgical interests include the endovascular treatment of abdominal and thoracic disease, hemodialysis access and peripheral vascular disease. He has presented this topic at various symposia and is serving as a sub-investigator in one of the industry-sponsored studies which The Cardiovascular Care Group participates in.

About The Cardiovascular Care Group

The Cardiovascular Care Group is New Jersey's largest and most experienced Vascular Surgery group dedicated solely to the diagnosis and management of diseases of the arteries and veins. Since their inception in 1963, the Group has remained committed to providing quality care using the newest technologies to deliver the best outcomes for patients. The board-certified physicians are highly trained in all techniques for management of vascular disease, including carotid artery disease, aortic aneurysms, peripheral artery disease, varicose and spider veins, and dialysis creation and maintenance.
